SOLID WASTE MANAGEMENT

Illegal Dumping

Illegal dumping is a serious crime that can harm our environment and make our neighborhoods look bad. Don't try to confront an illegal dumper. Instead, write down details of the incident if you witness it, such as a description of the vehicle, vehicle markings or a license tag number.

To report an illegal dumping site on public or private property:

- Report it online at: <http://www.miamidade.gov/311direct/#/greetings>
- Call 3-1-1
- Residents of Miami-Dade County are able to report neighborhood problems and code violations using 311Direct, a mobile application. 311Direct can be downloaded for free in the iTunes store for Apple users or in the Google Play store for Android users.

You can watch a video here: <https://youtu.be/OjMCe2nq6MY>

If you witness an illegal dumping incident in progress, call 911.

Avoid illegal dumping

Dumping things like tires, debris, old furniture and hazardous materials not only harms the environment and lowers property values, but results in millions of dollars spent on enforcement and cleanup costs.

If Miami-Dade County provides waste service to your residence, consider your options instead of dumping materials illegally:

- Request a Bulky Waste Pickup
- Deliver your items to a Trash & Recycling Center
- Visit a Home Chemical Collection Center

Private contractors can pay a per-ton disposal fee to have materials delivered to Miami-Dade County sites.

Read the Illegal Dumping brochure(s):

ILLEGAL DUMPING IS NOT A VICTIMLESS CRIME
 IT'S A SERIOUS ENVIRONMENTAL CRIME THAT IMPACTS THE QUALITY OF LIFE IN YOUR COMMUNITY

Grass Clippings:

Bag them or recycle them... just don't blow them away!

Patriot Day is a day the US remembers the terrorist attacks on September 11, 2001. This day is commonly referred to as 9-11 (Nine-Eleven). It is believed that 2,977 people died in the attacks. President George W. Bush proclaimed September 11th Patriot Day in 2002.

Patriot Day (Sept 11) Facts

On September 11th, US Flags should be flown at half mast - both on US soil and abroad. A moment of silence is held at 8:46 a.m. (EST) across the nation - commemorating the time the first plane struck the North Tower of the World Trade Center on September 11, 2001. The National September 11 Memorial and Museum takes up over half of the destroyed World Trade Center site. It contains bronze parapets inscribed with the names of those killed on September 11, 2001 and those killed in the 1993 World Trade Center attack. Cleaning up Ground Zero, as the World Trade Center was renamed, took 18 months and 19 days, and was completed in May of 2002. The Twin Towers of the World Trade Center were once the tallest buildings in the world, and contained enough concrete to build a sidewalk from New York City to Washington D.C.

BEFORE Hurricane Season

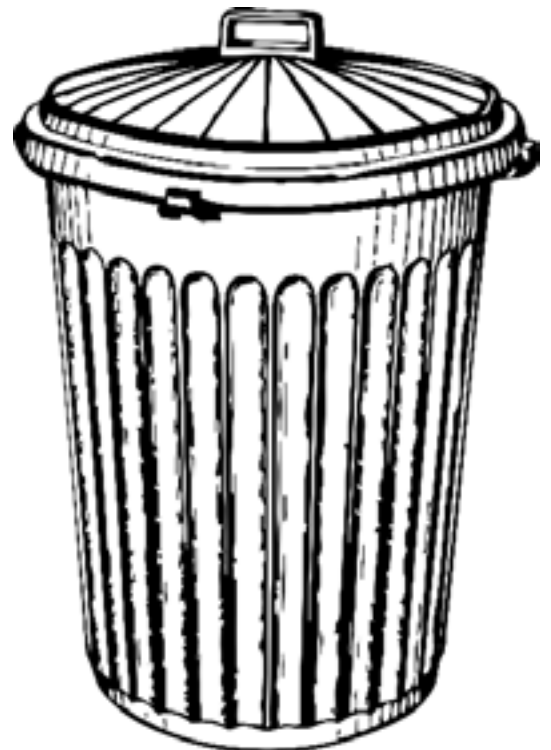

Some preventive maintenance can be done that will go a long way toward protecting property and reducing waste generated during hurricane season if Florida is hit by a storm.

- *Cut back all trees and branches that contact buildings.*
- *Thin out foliage and trees so wind can flow through the branches, decreasing the chances of uprooting during heavy winds.*
- *Place tree trimmings at the curb following the normal rules for yard trash on your scheduled pickup day. (Brush is limited to MAX 4 ft. in length and 4 inches in diameter. Bag up leaves and grass—or leave on lawn for “grass cycling”.)*
- *Clear your yard of any items that could become airborne and cause further damage, such as old lumber, lawn furniture, toys, etc. Place them at the curb on your regular “bulky waste” day for pick-up.*
